

The IfM Bonn

The Institut für Mittelstandsforschung (IfM) Bonn was established in 1957 as a foundation of private law on the initiative of Ludwig Erhard, then Minister of Economic Affairs (and later German Chancellor).

Founders are the Federal Republic of Germany and the Federal State of North Rhine-Westphalia. The institute's task is to analyse the status-quo, the development and the problems of small and medium-sized enterprises, to develop recommendations for SME policies and to disseminate its research results to the general public. www.ifm-bonn.org

IfM Working Paper Series

The Working Paper Series of the IfM Bonn

About the Working Paper Series

The Working Papers of the Institut für Mittelstandsforschung (IfM) Bonn offer a way to pre-publish manuscripts before scientific publication. The series is designed to open up ongoing research to a broad audience for discussion.

Aims and Scope

We invite submissions in the fields of

- Entrepreneurship and self-employment
- Family business
- SME-related topics

We do not have any methodological preferences. Theoretical, empirical and experimental work is welcome.

Abstracting and Indexing Information

- RePEc (www.repec.org)
- Econstor (www.econstor.eu)

Our newsletter informs 2.100 subscribers (researchers, politicians as well as practitioners, consultants, and self-employed) about your most recent work.

We take no Copyright

The IfM Working Paper Series **does not take copyright** on your paper. You will be giving the IfM Bonn a non-exclusive right to distribute your paper. You are also free to publish your paper in other Working or Discussion Paper Series. We also encourage subsequent publication in scientific journals.

Send your paper in pdf-format to:
