

## Author Guidelines

The Working Papers of the Institut für Mittelstandsforschung (IfM) Bonn offer a way to pre-publish manuscripts before scientific publication. The series is designed to open up ongoing research to a broad audience for discussion. The **IfM Working Paper Series** offers you an outlet to publish research in entrepreneurship, family business, and SME-related topics. We welcome theoretical, empirical, and experimental contributions. **IfM Working Papers are non-exclusive.** The IfM Bonn does not take copyright on your paper. You will be giving the IfM Bonn a non-exclusive right to distribute your paper. We encourage publication in any other platform, such as journals or other paper series.

Our series is **indexed** in Research Papers in Economics (RePEc, <http://repec.org/>) and Econstor (<http://www.econstor.eu/>) in order to make it visible to a broad research audience.

Please send your paper in pdf-format to [workingpapers@ifm-bonn.org](mailto:workingpapers@ifm-bonn.org). We do not provide any external referee process. Your manuscript, however, will be screened by the editorial board. After this brief screening, the paper will be send back to the author with a new front cover. After approval, the paper will appear in the IfM Working Paper Series.
